Curriculum vitae

Personal details

Name	**Aart den Braber**
Email	**aart@prosumfrontend.nl**
LinkedIn	**https://linkedin.nl/in/aartdenbraber**

Nice to meet you!

I'm a frontend dev with a passion for learning new things (see also the courses I've followed) and an eye for detail, especially regarding TypeScript and testing. Next to that, I'm a certified UX-researcher, so my focus is always on the end-user. This may mean that I'm able to figure out the best solution together with a UX designer, but might also mean that you don't need a UX designer. However, my focus is really on creating applications and writing code to achieve that.

Stack (unsorted): Angular 4-14 · Ionic2 · StencilJS · React · Redux · RxJS · NgRx · Node · TypeORM · NestJS · React · native JavaScript (ES6/2020, maar ook verouderde versies) · jQuery · TypeScript · NPM · yarn · HTML(5) · microdata · Sass · Java · Python · Flask RestX · PHP · Docker · Figma · Balsamiq · AWS (Elastic Beanstalk & S3) · ServiceNow dev · MySQL · PostgreSQL · MongoDB · Passport.js · Gitlab · Github · Cloud Foundry · Kubernetes · Source Tree · testing (TDD · Selenium · Protractor · Jasmine · Jest · Cypress · Spectator · Unit, integration & e2e) · JSDocs/JavaDocs/PyDocs · Prettier · TS/ESLint · OpenAPI 3 · Swagger · FTP · Wordpress · JSON · YAML · XML · Json Web Tokens (JWT) · Redux · RxJS · Express · pgAdmin · Socket.io · webcomponents · StencilJS · BS/Tailwind with PurgeCSS · ...

Methodologies: CI / CD · Git · Git flow · Github flow · designing and implementing REST API's · UX design · Agile / Scrum · testing · Typesafety · Accessibility · Flow design · BEM · ...

Also, I can say anything I like, but maybe my previous colleagues and managers can do a better job of saying what kind of person and developer I am. For their recommendations, please check LinkedIn.com/in/aartdenbraber or the last pages of this CV.
